

QUICKFORM AI Database Schema for Form Management

Database Schema Entity relationship diagrams

Minimal Prisma schema (future-ready for SQLite/Postgres):

```
model Form {
  id      String  @id @default(cuid())
  title   String
  description String?
  fields  Field[]
  responses Response[]
}

model Field {
  id      String  @id @default(cuid())
  type    String
  label   String
  formId  String
  form    Form   @relation(fields: [formId], references: [id])
}

model Response {
  id      String  @id @default(cuid())
  formId  String
  form    Form   @relation(fields: [formId], references: [id])
  data    Json
}
```
